Company Profile

PT Harco Energi Nusantara was established in 2021 as a company focused on delivering reliable and high-quality services across several key sectors, including construction, fabrication, cut & fill, and heavy equipment. Since its inception, the company has been committed to supporting industrial and infrastructure development by providing efficient, precise, and value-driven solutions.

Our products and services have been trusted by leading companies such as WIKA, Kaliban Group, and Pertamina, among others. With a strong foundation and a forward-looking approach, PT Harco Energi Nusantara continues to grow by prioritizing professionalism, operational excellence, and customer satisfaction in every project it undertakes.

With all of these experiences, we sincerely hope to build stronger and more meaningful cooperation with our partners and clients. We are committed to continuously delivering our best performance, creating value, and fostering trust in every collaboration we undertake both today and in the future.

Vision & Mission

To guide our growth and direction, we have established a clear vision and mission that reflect our core values and serve as the foundation for every action we take.

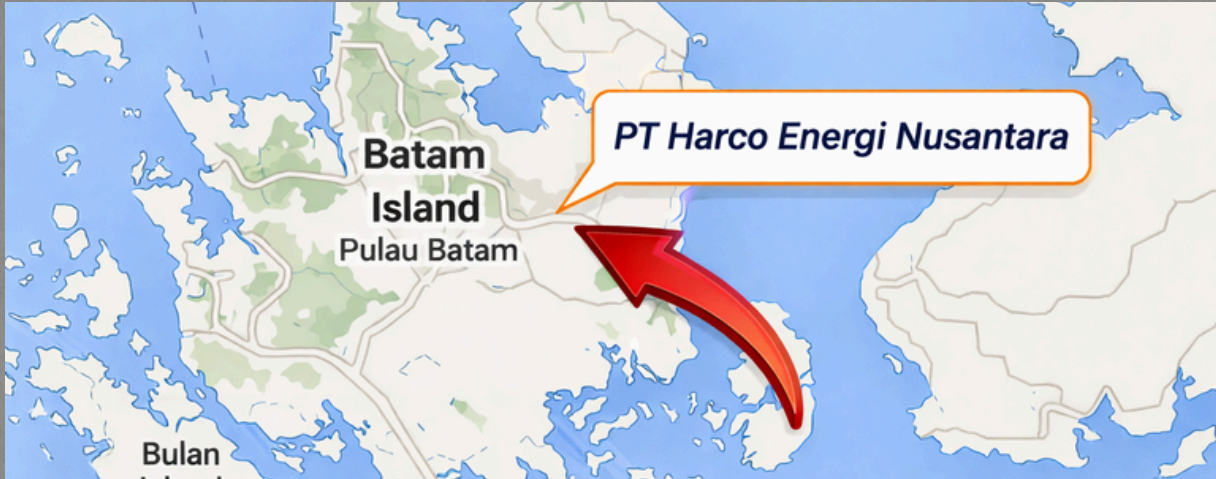

Vision

To become a leading, resilient, and competitive company that focuses on innovation and technology, with a core emphasis on construction, fabrication, and heavy equipment.

Mission

- To develop innovation and leverage technology to enhance efficiency, productivity, and workplace safety.
- To provide construction, fabrication, and heavy equipment rental services with the highest quality standards and timely delivery.
- To establish mutually beneficial strategic partnerships with clients and business partners.

Our Location

PT Harco Energi Nusantara is strategically located in Batam, one of Indonesia's key industrial and logistics hubs. Positioned along the international trade route of the Strait of Malacca, Batam offers excellent accessibility for the movement of goods and project operations, both domestically and internationally.

Furthermore, Batam is recognized as a rapidly growing industrial zone supported by well-developed infrastructure, investment-friendly policies, and its close proximity to Singapore and Malaysia. These advantages enable greater operational efficiency, faster project execution, and broader business connectivity.

By establishing its operations in Batam, PT Harco Energi Nusantara is well-positioned to deliver fast, responsive, and integrated services to support construction, fabrication, cut & fill, and heavy equipment needs.

Cut & Fill

PT Harco Energi Nusantara provides professional cut and fill services to support land development and infrastructure projects. Our work involves precise excavation (cut) and controlled soil filling (fill) to achieve the required ground elevation and stability in accordance with project specifications.

Supported by experienced personnel and reliable heavy equipment, we ensure accurate grading, proper soil compaction, and efficient execution to create a safe, stable, and ready-to-build foundation for various construction needs.

Construction

PT Harco Energi Nusantara provides comprehensive construction services for a wide range of projects, including public facilities such as residential housing, places of worship, and sports facilities. We are also experienced in developing production-related infrastructure, including factories, warehouses, and office buildings.

With a focus on quality, safety, and timely delivery, we ensure every project is executed efficiently and in accordance with client requirements, delivering functional, durable, and value-driven results.

Our Service

Heavy equipment rental & Maintenance

PT Harco Energi Nusantara provides reliable heavy equipment rental and maintenance services to support various construction and industrial projects. We offer a range of well-maintained equipment to ensure optimal performance, efficiency, and operational safety in the field.

Our services are supported by experienced operators and skilled maintenance teams, ensuring that all equipment remains in excellent condition, minimizes downtime, and delivers consistent productivity for every project.

Our **Fabrication**

PT Harco Energi Nusantara provides fabrication services focused on the production of construction components to support a wide range of structural and industrial projects. Our scope includes the manufacturing and assembly of steel and other structural elements tailored to specific project requirements.

We are committed to delivering precision in every stage of the fabrication process, from material selection to final assembly. By adhering to established engineering standards and specifications, we ensure that each component meets the required level of accuracy and performance.

Supported by skilled personnel and well-maintained equipment, our fabrication process is carried out with strict quality control to ensure consistency, strength, and durability. We continuously strive to improve our processes to achieve optimal results and efficiency.

The Company Values SIIP

Safety

We prioritize safety in every aspect of our operations to ensure a secure working environment for our team, partners, and clients.

Integritas

We uphold honesty, transparency, and accountability in all business practices and decisions.

Inovasi

We continuously seek new ideas and improved methods to enhance efficiency, productivity, and service quality.

Pertumbuhan

We are committed to sustainable growth by strengthening our capabilities, expanding our expertise, and improving our performance.

Let's Work Together

we believe that strong partnerships are the key to achieving sustainable success. With our proven experience in construction, fabrication, cut & fill, and heavy equipment services, we are committed to delivering reliable, efficient, and high-quality solutions tailored to your project needs.

Driven by our core values of Safety, Integrity, Innovation, and Growth (SIIP), we consistently strive to ensure every project is executed with precision, professionalism, and on-time delivery. Our strategic location in Batam further enables us to provide fast, responsive, and well-coordinated services to support your operations.

We invite you to collaborate with us and experience a partnership built on trust, performance, and long-term value. Together, let us create impactful results and build a stronger future.
